

REELTIME ANIMAL RESCUE'S COMPASSION EDUCATION: CONNECT & INSPIRE PRESENTER

CARRON MILLER - GOATS WITH HORNS ANIMAL SANCTUARY

Hi, I'm Carron Miller, and I volunteer with Goats With Horns Animal Sanctuary in Gilbert, Arizona. Our mission is to strengthen the bond between humans and animals by providing a safe and loving home for critters who are unwanted, abandoned, or need rehoming. At Goats With Horns, we care for over 60 animals, including goats, cows, sheep, pot-bellied pigs, ducks, chickens, turkeys, tortoises, cats, and a dog. Each one receives the love, food, shelter, and enrichment they need to live happy, fulfilling lives, along with regular veterinary care, biannual hoof trims, and any medical attention they may require.

We are deeply committed to ensuring that every animal we take in has a lifelong plan for care, and we never buy or sell animals. Instead, we focus on creating a space where animals can thrive and on educating others about the realities of factory farming and the benefits of a vegetarian or vegan lifestyle. At our sanctuary, we believe that all humans and animals deserve to live free from fear and harm.

Through participation in ReelTime Animal Rescue's Compassion Education program, I'm thrilled to share our mission with students worldwide. This virtual platform allows me to present the stories of our incredible residents, inspire compassion, and educate the next generation about the importance of kindness toward animals and the impact of their choices.

Thank you for supporting our work and helping us make the world a safer, kinder place for all living beings.
