

REELTIME ANIMAL RESCUE'S COMPASSION EDUCATION: CONNECT & INSPIRE PRESENTER

Puppy Pack Adventures!

TARA BASSETT - PUPPY PACK ADVENTURES

Hi, I'm Tara Bassett, founder of Puppy Pack Adventures, where my lifelong passion for animals and 40 years of on-camera journalism experience come together to make a meaningful impact in the world of animal rescue. Based in Louisville, KY, Puppy Pack Adventures is focused on reuniting lost dogs with their families, stray rescue trapping and transport for area shelters.

My hashtag is #SnipChipTagContain, promoting spaying and neutering, microchipping, proper identification, and secure containment as key steps to reduce overpopulation, abandonment, and lost pets. With decades of hands-on experience and strong partnerships with rescues, shelters, veterinarians, and animal welfare organizations, I'm dedicated to educating, informing, and entertaining while tackling the serious business of animal rescue. Through livestreaming on multiple platforms, I work to raise awareness and drive cultural change to improve and create animal welfare laws.

I'm also excited to expand this mission by participating in ReelTime Animal Rescue's Compassion Education program. This virtual platform allows me to connect with classrooms worldwide, sharing my expertise, the importance of #SnipChipTagContain, and inspiring the next generation to advocate for animals and build a kinder, more compassionate future.

Together, we can make a difference—one rescue, one family, and one life at a time.
