

# REELTIME ANIMAL RESCUE'S COMPASSION EDUCATION: CONNECT & INSPIRE PRESENTER

## ALLI CHAMBERS - ZEND FINAL FARM SANCTUARY

Hi, I'm Alli, and I'm so happy you're here! My husband, Justin, and I founded The Zend Final Farm Sanctuary to create a safe and loving home for animals in need while inspiring compassion and change in the world around us. Our journey began in 2017 after watching *What the Health* and *Earthlings*, which opened our eyes to the profound impact of our choices on animals, the planet, and our health. We immediately went vegan and knew we wanted to do more—so we decided to start a farm animal sanctuary.

In 2021, we made that dream a reality. We packed up our lives, found the perfect property in Justin, TX, and started building The Zend from the ground up. Today, we care for over 75 animals across 12 species, providing forever homes or helping rehome those we can't keep permanently. Every day is an adventure, from feeding and vet visits to fence building, tours, and sharing our residents' stories. It's hard work, but it's the most rewarding thing we've ever done.

While we love welcoming visitors for private tours to cuddle cows, brush donkeys, and kiss pigs, we're thrilled to expand our mission even further through participation in ReelTime Animal Rescue's Compassion Education program. With this platform, we can virtually reach students across the globe, sharing the importance of kindness, sustainability, and the incredible stories of the animals we care for. It's an amazing opportunity to inspire the next generation to make compassionate choices and help create a better world for animals, people, and the planet.
